# Interview Follow Up

**Turning Interviews  
into  
Job Offers  
Series**

# WELCOME...

Welcome to Succeed in America tele-seminar series.

These seminars offer you to an opportunity to be successful not only in your job search but in many other business and personal situations.

Although this program focuses on interview techniques, the knowledge and skills and the tools you acquire will help you not only to get a job but to advance in that job. They will be useful throughout your career whether on the job or in times when you will be looking for other opportunities.

You have probably heard about some of the information that we will cover, but because habits change slowly, repetition is essential for retention. Books and educational materials will also help you to retain the information. ....And real skills come with practice.

So let's experience together the learning journey. And remember,

**YOUR SUCCESS IS MY SUCCESS!**

With love and best wishes,

Dr. Nara Venditti,  
President, SucceedinAmerica
